## DAMAGE AND DEATH IN TORNADO AND FIRE

### Several Killed in Connecticut Panic--- Tornado Does Great Damage in Nebraska.

Avon, Conn., Sept. 16.—The explosion of a fuse, followed by a fire, in a building of the Climax Fuse Co. here yesterday afternoon caused a panic among twenty employees in the building and resulted in the death of seven and injuries that doubtless will prove fatal to several others.

There was no way of coping with the flames, which soon spread rapidly, and in less than an hour after the explosion occurred those who were unable to escape were in the clutches of a fire that eventually burned their bodies to ashes.

As the day wore on the great crowd that collected saw the bodies of men and women roasting in the fire and were powerless to check the flames.

The dead:

WILLIAM BURKE.  
JAMES JOYCE.

ROBERT McCARTY.

JAMES WALLACE.

MOLLIE McCARTY.

MISS J. SULLIVAN.

MRS. M. B. TUCKER.

The injured:

Charles Dimmock, expected to die.

Michael Canfield.

Michael McCarthy.

Lyman Hull.

Mrs. Wm. Burke, probably fatally burned.

Earl Tuller.

Arthur Tuller.

Le Deyt.

Neillie Canfield.

Mrs. Fish.

Nora Ryan.

The exact cause of the accident may never be known, but it is the accepted theory here that in an effort to burn out a stoppage in one of the machines a workman caused an explosion of a fuse with the hot iron he held in his hand. Those who were in the room where the explosion occurred say that the explosion was not severe and ordinarily would not have caused a panic.

Inflammable material, however, was set on fire and in a few moments the room was a mass of flames. In an instant there was a mad rush for the doors and windows, and during the scramble many were pushed back into the building, while others were severely burned.

There were only sixty hands at work in the entire plant.

As one of the walls of the second largest building fell several bodies could be seen entangled in the mass of machinery in the basement, and in a short time they were reduced to ashes. The loss on the buildings is estimated at \$100,000.

Three Killed in B. & O. Wreck.

Kinnell, Ind., Sept. 16.—An engine of a Baltimore and Ohio passenger train ran into a switch engine here early this morning.

Three men were killed and twenty-one persons injured.

The switch engine was allowed to protrude over on the main line and the passenger engine was sideswiped. The engine, mail car and combination baggage and passenger coach were turned over and rolled down an embankment. The sleeper left the track slightly damaged.

The dead:

ENGINEER SNIDER.

BAGGAGE MASTER FRANK SMOOT.

WALTER WILSON, of Zanesville, Ohio, was found under the mail car, and it is supposed had been stealing a ride.

Soldiers Have Narrow Escape.

New York, Sept. 16.—Five one-story buildings used as a barracks at the U. S. government reservation at Ft. Hamilton, burned this morning.

### Arrest of Negro for Stealing Watch Result of What Fortune Teller Said

The arrest of Ben Taylor, colored, alias Walter Bonds, this morning for grand larceny, hinges on the faith one person had in a local colored fortune teller.

A week ago Pete Anderson, colored, who works at the Craig Hotel, left his coat in the locker, but the locker was unlocked. Anderson's \$35 watch was hanging in his coat and when he went to don the garment that night found his time piece missing. The loss bothered him a great deal and finally he went to a colored fortune teller for advice and enlightenment.

He told him, according to his story, how he lost his watch, and many

## THE BEAVER'S CREW HAS LIVELY FIGHT

Officials at New Madrid, Mo., Didn't Want the Boat to Land.

Several Members of the Crew of Paducah Landed and Were Vanquished.

### PUT IN JAIL BY TOWN OFFICERS.

New Madrid, Mo., Sept. 16.—There was a hand to hand conflict yesterday between the officers and crew of the towboat Beaver on the one side and the officers of this town on the other.

One member of the boat's crew was seriously injured. The fight followed an attempt of the steamboat men to enter New Madrid after they had been notified that the town had quarantined against all boats from southern points on account of yellow fever.

When Capt. Frank Farnesley, of Paducah, of the Beaver, and four of his crew started to come ashore in a skiff after the towboat had been anchored in midstream, they were met by Marshal Richards and other deputies.

The steamboat men drew their guns, and then the trouble began. The officers of the town were finally victorious, and the steamboat men were put in jail.

The trouble caused the greatest excitement, and many were the threats made, but nothing came of them.

Many people are badly frightened over the fever outbreak, and are fighting shy of all boats from the south. The Beaver has been below Memphis.

Capt. Frank Farnesley lives at Ninth and Tennessee streets, Paducah, and has been on the Beaver for many years.

It is possible from some reports that Capt. Farnesley did not go ashore himself as a dispatch to the Memphis Commercial Appeal says:

Capt. Riggs, of one of the barges, called the officer hard names. The officer, drawing his gun, commanded them to come ashore and arrested Riggs and two other men and placed them in the city jail. Upon examination Riggs plead guilty to disturbing the peace and was fined \$6.95. One of the other men had a judgment against him for former offense and paid up. The captain of the Beaver expects further litigation on the part of his line.

### Railroad Representatives Examine Locks.

From every indication the patent automatic switch locking appliance invented by Messrs. Robert Richardson and Stoddard Robertson, will be a success and a money-maker for the inventors. This is a lock which works itself and makes it impossible for a switch to remain unlocked after the lever has been sprung in place. The young gentlemen have received many letters about their invention, and two representatives from big railroads have been here to look over their model. One representative said that it would certainly make a fortune for the inventors.

### More Details of Indian Flood.

Lahore, Sept. 16.—Reports are slowly arriving that give details of the floods in Kashmir Valley. They show that to a great extent the country is inundated. Water covers ten miles of the road to Kashire and Srinagar, one of the most important towns in the district, resembles an open sea. It is not believed there was much loss of life.

### To Increase Constabulary Salaries.

Washington, D. C., Sept. 16.—With a view to the improvement of the constabulary in the Philippines, increased salary will be granted officers. Lieutenants will get an increase of about two hundred dollars a year.

### Installment House.

New 5-room house, good lot, North View addition, \$1,350. \$150 cash, balance \$20 per month. Easy way to buy a house. Near car line.

### The Czar Goes Visiting.

London, Sept. 16.—A dispatch from St. Petersburg says the czar left this morning for Finland to be gone two days.

### Entertained Secretary Taft.

Yokohama, Sept. 16.—Secretary Taft was entertained by the Kotani Merchant today.

## THE WEEK'S NEWS IN THE COMMERCIAL WORLD

Clearings this week, \$599,116

Same week last year, \$53,226

Local wholesale houses report an excellent trade for the season with collections very fair. Quarantine restrictions are less severe, and traveling men can get many points they could not enter a few weeks ago. However, there are still great many southern towns it is impossible to get into and some states, and the men traveling these points are either at home or switched to other territory.

Fall business is opening up very satisfactorily with the retailers, and indications point to a good season.

### Street Car Inaugurates New System.

Today the Paducah City Railway began paying off employees by the envelope system, making the work of paying a great deal easier and faster for the employees. The company also began closing the office at 1 o'clock on Saturday afternoons. The office will be in charge of one man, however, on Saturday, his duty being to issue change to transfer men and sell school children checks.

### Kentucky Tobacco Good.

Washington, Sept. 16.—Late yesterday afternoon the department of agriculture gave out its statistics on the condition of the tobacco crop in Kentucky on September 1 was 85 per cent, as against 81 for September 1, 1903, 78 for September 1, 1904 and a ten-year average of 79. For Tennessee the average condition of the tobacco crop September 1 was 60, as against 89 for September 1, 1903; 76 for September 1, 1904, and a ten-year average of 80. The report is more favorable both for Kentucky and Tennessee than had been expected.

### Washington Pessimistic.

Washington, Sept. 16.—Controller Ridgley was not very strongly impressed with the prospect of resumption of the Western National bank pending word from the reorganizers in response to the controller's counter proposition. The controller's office is not making any plans looking to resumption. The failure of nearly every bank is followed by efforts to resume, and it is believed the controller's force thinks that in the case of the Western National it is the old story over again.

### Western Bank Troubles.

The officials of the Western National bank, in view of the differences existing between the reorganizers and the controller of the currency, have decided to send a committee to Washington to talk the matter over with the controller, says yesterday's Louisville Times. Receiver Thornton has wired the controller to have a day when he can receive the committee, which, in all probability, will be made up of President T. L. Jefferson, E. C. Hegan and another stockholder.

### CUT HIS WIFE'S THROAT AND THEN HIS OWN.

### Adjudged Insane and Escaped From Officers by Jumping From Car Window.

Williamstown, Ky., Sept. 16.—Eugene Morgan, who cut his wife's throat and then attempted to end his own life in the same way, was today adjudged insane before County Judge Conrad.

Sheriff Baker and Deputy Tanner took to the Lakeland asylum with Morgan and when the train was near Campbellsville, Morgan leaped from the car window and ran into a tunnel on the Louisville and Nashville.

The officers pursued him without avail and it is supposed that he drowned himself. His mind is badly affected and many believe this is due to a sudden realization of his deed. His wife will recover. The officers returned here.

### 50 INDICTMENTS

Returned For Cigarette Smoking in  
Southern Indiana.

Evanston, Ind., Sept. 16.—The Spencer county grand jury has been in session several days at Rockport and up to this time nearly fifty indictments have been returned against boys and young men for smoking cigarettes in violation of the new state law. This is the first attempt at the enforcement of the law in this end of the state, and it is said many more indictments will be returned within a few days. Many of the indicted ones have fled into Kentucky to escape prosecution and it is said several mothers have gone to the prosecutors and asked that the indictments be nullified, saying their sons will obey the law in the future. The prosecutor will push all the cases.

### LOUISVILLE RACES.

#### With First Fall Meeting Held in Years.

Louisville, Ky., Sept. 16.—The first meeting of the New Louisville Jockey club begins this afternoon at Churchill Downs. In order to finish the card before dark, the first race was called at 2:15. This is the first time in many years that Louisville has had fall racing and the prospects for a successful meet are flattering. Judge Chas. F. Price will preside while Richard F. Dwyer will do the starting. A meeting of the stewards of the American Turf Association will be held Monday at which it is expected dates for the winter meetings of the association will be announced.

### CAIRO INSPECTORS RE-ENFORCED.

Cairo, Ill., Sept. 16.—Secretary James A. Egan has added two more to the force of inspectors here—Dr. James McManus of this city and Dr. Thomas Kinney of Mounds. Complaints continue to come of banana messengers entering the state from infected districts. Secretary Egan detailed Dr. Kroha to make a thorough investigation at Mounds.

### FLD PANIC STRICKEN.

New Orleans, Sept. 16.—The fact that members of refugees from Tallulah and Lake Province fleeing north had developed yellow fever at Cincinnati and other points created a day when he can receive the committee, which, in all probability, will be made up of President T. L. Jefferson, E. C. Hegan and another stockholder.

The New Orleans situation showed some signs of improvement yesterday with better record than on Thursday. The diminished number of fatalities remains the brightest phase of the situation.

### INFECTED REFUGEES IN CHICAGO.

Chicago, Sept. 16.—Several Italians supposed to be infected with yellow fever arrived in Chicago last night and succeeded in evading the health officials who were at the train to meet them. The Italians came from Tallulah, Louisiana.

## Theatrical Notes

Next Week at The Kentucky. Monday night, "David, the Shepherd Boy."

Tuesday night "Polly Primrose."

Wednesday night and balance of week, with matinees Saturday, the Fiske Stock Company.

Great preparations are being made for the formal opening of The Kentucky theater on Monday, September 25th, with "Rajah of Bhong," the big musical extravaganza.

Seats will go on sale Monday morning at 9 a. m., one week in advance of the show. Positively no seats reserved by telephone until after 10 o'clock. This will be the rule on all big advance sales this season and is done in order that those who line up at the box office window early in the morning may have preference in obtaining the best seats. After the rush is over then telephone orders will be taken as usual.

Those who were in the Labor Day parade, or standing any ways near Sixth and Broadway during the parade, and those who attended the matinee at The Kentucky on Labor Day, will have the opportunity of seeing their picture thrown on the canvass by moving picture machine at The Kentucky beginning Wednesday, September 20th, and balance of week, with a matinee Saturday.

Seats for Miss Carol Arden, in "Polly Primrose," go on sale Monday morning at 9 a. m.

Manager Williamson made the hit of the season when he started "Polly Primrose" on the road. The stirring war play has been presented to full houses everywhere, and in some places the box office had to be closed before all had been accommodated with seats. Miss Carol Arden, who has won applause in Belasco's "The Girl I Left Behind Me," in Charles Frohman's brilliant success, "Lady Windermere's Fan," in Blanche Walsh's specialty, "Resurrection," and a number of other difficult roles, is the charming and vivacious "Polly" of the play. Mr. Justice, the leading man, has for several seasons been the favorite of New York audiences. The staging and supporting company are all that could be desired. "Polly Primrose" will be presented at The Kentucky Tuesday under the management of D. L. Williamson, manager of the theater at Cairo. Mr. Williamson is well known in Paducah and his friends are anxious to see his theatrical venture.

The Fiske Stock company, which plays an engagement in this city of four nights and Saturday matinee, beginning Wednesday night, will present a novel and interesting act in "La Protea." T. V. Stock's Parisian sensation. To describe this novelty would take up columns of space. It is unlike anything ever before seen on the American stage. Mr. Stock spent two years in performing and producing the act and today has the proud distinction of having accomplished what many other inventors have tried to do—namely, the creation of something out of nothing. "La Protea" is an illusion, still it is not an illusion. Upon the rise of the curtain La Protea is discovered standing upon a pedestal in a Galatea garb. Soft music is heard and La Protea starts to sing, different color clouds encircle the figure until the entire stage remains one of a beautiful sky with La Protea among the clouds. As if by magic the scene immediately changes to a garden and one by one the roses fall to the ground until the entire stage is a bower of flowers with La Protea still in the center; a cupid appears in the sky and drawing his bow aims at La Protea's heart; the arrow quivering, leaves the bow and La Protea is pierced by cupid's dart. Many beautiful electrical effects are introduced and the strangest thing of all is, that outside of La Protea the stage is clear during the act, which makes the novelty all the more mysterious. The local pictures will also be seen in connection with many others. If you were in the Labor Day parade come and see if you can recognize yourself in the moving picture.

#### IN BONDAGE.

I am a slave to one  
Whose face is like a flower,  
Pink in the morning sun,  
Sweet in its fragrant bower;  
A queen who sits above  
And rules my heart to give  
Its worship and its love  
So long as I shall live.

I am a subject true  
To one whose tender eyes—  
Twin violets are blue  
And innocently wise;  
A queen who rules so well,  
Had I more skill and art  
I should make bold and tell  
The dream that haunts my heart.

I am a captive, yet  
Captivity like this  
Holds nothing of regret,  
Holds everything of loss;  
A queen—ah, dearest, so  
Forever shall you be,  
A king to mate you? No!  
Sweeter is slavery!

Things socially have been dull the past week and the promises for the future are indefinite. #### EPISCOPAL CONFERENCE

Will Be Held at Louisville Monday—No One to Attend From Here.

Bishop Charles Edward Woodcock has issued an invitation to all the Episcopal clergy of the Diocese of Kentucky and to a number of lay church workers to a conference to be held in the parish house of the Cathedral at Louisville Monday evening at 8 o'clock. The purpose of the meeting is to organize the work and arrange for another larger conference to be held late in October.

The meeting Monday evening will be devoted to discussion of the best means of uniting the Episcopal workers in this diocese, and committees will be appointed to arrange for the mass meeting. It has been decided that the later will be held Sunday, October 29. Addresses will be delivered by prominent missionary workers from all parts of the country.

The conference is intended to become an annual feature of Episcopal work in Kentucky. After the mass meeting October 29, there will be a dinner, at which speeches will be made touching the future of the work.

It is likely that no one from Paducah will attend Monday's conference.

#### LITTLE INTEREST

KEEPING FILES OF PAPERS.

The Louisville Herald advances a new idea—that of keeping a file in every county of the state of the daily and weekly papers. It gives its reasons as follows:

The value of newspaper files is too little understood. The Flemingsburg Times-Democrat was recently burned out. The loss includes the files of the paper for nearly twenty years, embracing the local history of the town, the family records of the county and political annals of the state at large. This valuable register of contemporaneous history, the story of a whole generation, is now in ashes. The loss is irreparable. Nor labor, nor money, nor inventiveness can restore the burnt volumes. No record in any county office can supply the information to be had from the files of the county papers. Should not every county keep its local papers on file and have them from time to time, bound in book form, for purposes of consultation and information on historical, political and even legal questions? If newspaper office files are destroyed, the county files shall remain. Every county spends money bringing infinitely less return than would the outlay for the county papers.

The Herald has advocated the subscription by schools and colleges for state and county papers. The Flemingsburg disaster, paralleled by many another in this and other states, suggests that counties do likewise and that the person in custody of county buildings be charged with the care of these state and county papers. Kentucky ought to begin in this fine work of preserving historical data, such as no source, save the newspaper, can supply."

If any city official is trying to have the contract for street improvements cancelled on the ground that the bituminous material is no good, he displays less than the average intelligence of local city officials. If he takes Broadway as a criterion, he shows still less. Anyone who doubts the value of the bituminous material can easily convince himself by writing or visiting some of the many cities that now use it almost exclusively. The reason Broadway is not a fair sample of the work is that the city forced its construction in cold weather, when it should not have been attempted. The city wasted the summer months and then in the fall and on the eve of winter compelled the company to put down the material on top of newly excavated storm water ditches, which sank in many places. The city is now trying the same game in the Jefferson and Kentucky avenue improvements, and if it carries out its plan, the result will probably be the

same as on Broadway.

The board of education is only another to suffer from the innumerable and inexcusable delays of the legislative boards and other city officials of Paducah. Some years ago the city purchased school property in Mechanicsburg, and it was regularly ordered deeded to the board of education, as required by law. Mayor Yerger was mayor then, and overlooked the matter, and as a result the property is still in the name of the city, and although the board of education has erected another and larger school building in Mechanicsburg, desires to sell the other building and has a purchaser for it. It cannot get a deed from the city. For several months it has been trying, but it has always been with the same result—nothing doing. Such methods of transacting public business are shame and disgrace to a city the size of Paducah.

The people are entitled to pure meat and milk. If those who peddle it about the city are not willing to have it inspected, they should quit the business. The city authorities have no right to endanger the health and lives of the people merely because someone does not want to go to the trouble and expense of having his wares inspected before offering them for sale.

While the yellow fever situation in the south is worse, the danger of infection in this part of the country is less than formerly because of the approach of cool weather. The south has had a hard time, and is having a more difficult time now, but it has the sympathy of the rest of the country, and if it needs help can get all it wants.

Col. Jack Chin, that great old bluffer, has just returned from New York. Col. Chin's propensity for talk is about as great as his reputation for fight and in neither is he to be taken seriously. While in Gotham he regaled a group of friends on Kentucky politics, and among other things admitted: "The Democrats of this state took it (the state) from the Republicans with an ax, and they're not going to hand it back to 'em on a silver waiter." We are glad to find one Democrat candid enough to admit how they took the state away from us. We had often wondered what it was they used, and now Col. Chin comes forward with the information and says it was an ax!

A medicine to produce results must be made right. Tasteless Chili Tonics are not and we will prove it. No two bottles of tasteless tonics have the same amount of medicine, so the dose is uncertain. At least 20 percent of the medicine is lost in the water used in making them. The more you take the sicker you get. ### RECEIVER ASKED FOR H. N. MARTIN CO.

Alleged That Louisville Tobacco Company is Insolvent.

Heavily Indebted to the Western Bank—Big Individual Bankruptcy Petition Filed

BY J. W. BROWN, TOBACCONIST

Louisville, Ky., Sept. 16.—W. S. Logan filed a petition asking the court to appoint a receiver for H. N. Martin & Co., tobacco manufacturers, and alleging that the defendant is hopelessly insolvent. The plaintiff says that the assets of the defendant amount to \$105,500 which include \$65,000 worth of accounts. It is charged further that the defendant is in debt to the Western National bank of Kentucky, First National bank, German Insurance bank and Third National bank to the extent of \$187,000; to Hugh Martin for \$1,000 to Mrs. D. W. Peed for \$5,000, Louisville Tobacco company, \$5,000, and other creditors about \$12,000, making a total alleged liabilities of \$221,000.

The plaintiff says that all of the defendant's tobacco and accounts have been mortgaged to the banks, and that this pledging of accounts was in fraud to other creditors for the purpose of preferring the banks. The basis of the plaintiff's suit is a \$2,000 loan he claims he made to the defendant December 1, 1904, upon which he says he received but \$27.81. He asks judgment for \$1,776.75 and certain expense money he used in making a trip for the defendant. It is charged that the defendant has been conducting its business at a loss for the past five years and that unless a receiver is appointed all the property will be lost to claimants. The creditors are named as defendants.

**Big Bankruptcy Case.**

Louisville, Ky., Sept. 16.—John W. Brown, a member of the tobacco dealing firm of Martin, Martin & Co., yesterday afternoon filed a voluntary petition in bankruptcy with the clerk of the United States court here. He asks that he be discharged by the court of his individual obligations, and of his debts as a member of the firm of H. N. Martin & Co. The total liabilities are given at \$183,694, and the assets at \$215,593.88, including life insurance policies for \$12,000.

The chief creditor, according to the schedule filed with the petition, is the Western National bank, which was recently closed by order of the controller of the treasury, and which held stock in H. N. Martin & Co., valued at \$7,800, and had loaned money to E. A. Hall, of this city, D. Reed, of Lexington, H. N. Martin & Co., and A. G. Herr, on notes indorsed by the petitioner, bringing the total to \$39,515.

Among the creditors is the Globe Bank and Trust Co., Paducah, \$2,050.

Mr. Brown's chief asset is his capital stock in H. N. Martin & Co., listed at \$186,500. He states that he holds the note of R. W. Beasley, of Paint Lick, for \$2,000 and a judgment against C. W. Codd, of Bowling Green, for \$2,273.48. The lot at 1627 Fourth avenue is listed at \$11,000. Exemption is claimed on \$1,240.

### CHANGES ORDERED

IN A NUMBER OF ORDINANCES  
 BY THE JOINT COMMITTEE  
 LAST NIGHT.

Effort Being Made to Give Separate  
 Offices to Auditor and to the  
 Treasurer.

The joint ordinance committee of the general council held a meeting last night, but did nothing of much consequence. The advisability of separating the offices of city treasurer and city auditor was brought up and discussed and finally referred to the mayor. It is claimed that the business of each office is such that a separate office is needed for each, and various plans are suggested for getting more office room at the city hall, which is already overflowed.

License Inspector Ed. Rivers suggested that peddlars be required to pay a license for selling meat, and be given a number showing that they were licensed, but the committee did not decide on anything.

Solicitor James Campbell, Jr., was instructed to make the necessary changes in the lewd women ordinance, the fire limits extension ordinance and the ferry franchise ordinance.

## Raffles, The Amateur Cracksman

By E. W. HORNUNG

### THE IDES OF MARCH

No. 1 of the Series

(Continued from yesterday.)

It was my turn to stare at Raffles. "You?" I vociferated. "You hard up? How am I to sit here and believe that?"

"Did I refuse to believe it if you?" he returned, smiling. "And with your own experience do you think that because a fellow has rooms in this place and belongs to a club or two and plays a little cricket he must necessarily have a balance at the bank? I tell you, my dear man, that at this moment I'm as hard up as you ever were. I have nothing but my wits to live on—absolutely nothing else. It was as necessary for me to win some money this evening as it was for you. We're in the same boat, Bunny. We'd better pull together."

"Together?" I jumped at it. "I'll do anything in this world for you, Raffles." I said, "if you really mean that you won't give me away. Think of anything you like, and I'll do it!" I was a desperate man when I came here, and I'm just as desperate now! I don't mind what I do if only I can get out of this without a scandal."

Again I see him leaning back in one of the luxurios chairs with which his room was furnished. I see his indolent, athletic figure; his pale, sharp, clean shaven features; his curly black hair; his strong, unscrupulous mouth. And again I feel the clear beam of his wonderful eye, cold and luminous as a star, shining into my brain, siftling the very secrets of my heart.

"I wonder if you mean all that," he said at length. "You do in your present mood, but who can back his mood to last? Still, there's hope when a chap takes that tone. Now I think of it, too, you were a plucky little devil at school. You once did me rather a good turn, I recollect. Remember I, Bunny? Well, wait a bit, and perhaps I'll be able to do you a better one. Give me time to think."

He got up, lit a fresh cigarette and fell to pacing the room once more, but with a slower and more thoughtful step and for a much longer period than before. Twice he stopped at my chair, as though on the point of speaking, but each time he checked himself and resumed his stride in silence. Once he threw up the window, which he had shut some time since, and stood for some moments leaning out into the fog which filled the Albany courtyard. Meanwhile a clock on the chimney-piece struck 1, and one again for the half hour, without a word between us.

Yet I not only kept my chair with patience, but I acquired an incongruous equanimity in that half hour. Insensibly I had shifted my burden to the broad shoulders of this splendid friend, and my thoughts wandered with my eyes as the minutes passed. The room was the good sized, square one, with the folding doors, the marble mantelpiece and the gloomy, old fashioned distinction peculiar to the Albany. It was charmingly furnished and arranged, with the right amount of taste. What struck me most, however, was the absence of the usual insignia of a cricketer's den. Instead of the conventional rack of war wares, a carved bookcase, with every shelf in litter, filled the better part of one wall, and where I looked for cricketing groups I found reproductions of such works as "Love and Death" and "The Blessed Damozel" in dusty frames and different parallels. The man might have been a minor poet instead of an athlete of the first water. But there had always been a fine streak of aestheticism in his complex composition. Some of these very pictures I had myself set in his study at school, and they set me thinking of yet another of his many sides and of the little incident to which he had just referred.

Everybody knows how largely the tone of a public school depends on that of the eleven and on the character of the captain of cricket in particular, and I have never heard it denied that in A. J. Raffles' time our tone was good or that such influence as he troubled to exert was on the side of the angels. Yet it was whispered in the school that he was in the habit of parading the town at night in loud checks and a false beard. It was whispered and disbelieved. I alone knew it for a fact, for night after night had I pulled the rope up after him when the rest of the dormitory were asleep and kept awake by the hour to let it down again at a given signal. Well, one night he was overbold and within an ace of ignominious expulsion in the heyday of his fame. Consummate daring and extraordinary nerve on his part, aided doubtless by some little presence of mind on mine, averted that untoward result, and no more need be said of discreditable incident. But I cannot pretend to have forgotten it in throwing my self on this man's mercy in my desperation. And I was wondering how much of his leniency was owing to the fact that Raffles had not forgotten it

### THE SECRET OF SUCCESS

"No, Sir! You cannot pull off any substitutes on me. I've been using August Flower since I was a boy, and I'll have no other."

"I was thinking of it too."

He smiled as though he had read my thoughts.

"Well, you were the right sort of little beggar then, Bunny. You didn't talk, and you didn't flinch. You asked no questions, and you told no tales I wonder if you're like that now."

"I don't know," said I, slightly puzzled by his tone. "I've made such a mess of my own affairs that I trust myself about as little as I'm likely to be trusted by anybody else, yet I never in my life went back on a friend. I will say that; otherwise perhaps I might be in such a hole tonight."

"Exactly," said Raffles, nodding to himself as though in assent to some hidden train of thought—"exactly what I remember of you, and I'll bet it's as true now as it was ten years ago. We don't alter, Bunny; we only develop. I suppose neither of us is really altered since you used to let down that rope and I used to come up it hand over hand. You would stick to nothing for a pal—what?"

"At nothing in this world," I was pleased to cry.

"Not even at a crime?" said Raffles, smiling.

I stopped to think, for his tone had changed, and I felt sure he was chaffing me, yet his eye seemed as much in earnest as ever, and for my part I was in no mood for reservations.

"No, not even at that," I declared. "Name your crime, and I'm your man."

He looked at me one moment in wonder and another moment in doubt then turned the matter off with a shake of his head and the little cynical laugh that was all his own.

"You're a nice chap, Bunny! A real chap—character—what? Stuleide one moment and any crime I like the next. What you want is a drag, a boy, and you did well to come to a decent, law-abiding citizen with a reputation to lose. None the less, we must have that money tonight by hook or crook."

"Tonight, Raffles?"

"The sooner the better. Every hour after 10 o'clock tomorrow morning is an hour of risk. Let one of those checks get round to your own hand, and you and it are dishonored together. No, we must raise the wind tonight and reopen your account first thing to-morrow. And I rather think I know

### ATTENDANCE IN THE SCHOOLS BETTER

Comparatively Small Enrollment in High School.

Many Pupils Are Kept Out Because of the Failure to Have Been Vaccinated.

SUPT. LEIB HAS A GOOD PLAN.

The first week of the fall term of Paducah public schools closed yesterday afternoon at 3:30 o'clock and the schools in every respect experienced a successful week for a beginning. There was unusual illness among the teachers, but the work of the schools was not seriously affected.

There was but a slight increase in the actual enrollment because of the fact that 60 colored pupils were refused enrollment because they had no vaccination scars and would not undergo the operation of vaccination.

This cut down the enrollment just a little but the teachers continued throughout the week to receive additional pupils.

The High school has but 125 pupils, but the principal thinks this number will be increased to 150 within a few weeks. This is comparatively a small High school enrollment. Miss Emma Morgan, teacher of English, has been ill, but will be on duty Monday, it is thought. She was placed in charge of the Franklin building during the illness of Prof. Sugg, but became sick herself. Prof. A. M. Ragsdale, county school superintendent, has been secured to take charge of Prof. Sugg's place until the latter recovers, and Miss Morgan will go to her regular duties in the High school.

The former quarters of the laboratory at the High school, science department, were too small and the sinks and other apparatus are being moved to a larger room in the building on the third floor. Prof. Woodbury, master of science, is adding many features to the work in this department and the pupils are taking a great interest in it.

Supt. Leib thinks that the friction often caused between teachers and parents by reason of some action of a pupil is due directly to the failure of the teacher to become acquainted with the parents of his pupils.

"I hold that teachers should get out and mix about with the parents and become of good, sound social standing with them—to be as much as their best friends," he explained, "and then when any friction arises between teacher and pupils the parents will have confidence in the teacher and this greatly aids in bettering conduct and getting the best results from pupils.

Teachers can get out and mix about with parents and I think this should be done. In some cities where this is practiced the best schools possible to find and maintained. To illustrate why I think the teacher should take this view of it, I will give you a personal experience.

"A colored teacher came to me and asked me not to send her to a certain school. "They are not my class of people in that vicinity, and I don't know how to go about them," she explained to me. "Well, I asked her if she felt better than her pupils, and she replied she did. I told her then she should not be teaching in the schools, and that I would recommend some other teacher. She saw where she had made her mistake and when her position was thus in danger, readily agreed to go ahead and do the work. She will, however, never make a success when she feels superior to her pupils.

"I want teachers to feel as much interest in their pupils as they would their own children, and to do this one must know something of the family. The parents sometimes are a little narrow and think their children are abused, and my plan, which is now no enemy, is successful, and I hope to attempt to have it successfully applied here—if I can receive the co-operation of the teachers."

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Stroud, Midlothian, Tex., writes, May 31, 1901:

"We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria.
